

*S*pices and sauces go missing, wreaking havoc on the chef's latest creation — even in a 14-inch deep cabinet. That's where our collection of luxury pantry item organizers helps streamline the searching and storage process. With or without a cabinet door face (shown without), slide out our new **Professional Series Pull-Out Pantry Rack** on technologically advanced soft-close, full-extension, ball-bearing steel slides to reveal all your goods stored at the back of the shelf. This adjustable height tall rack glides in and out of 18-inch wide cabinetry sections (or wider) carrying five heavy-gauge, chrome-plated steel baskets on the powder-coated steel frame.

- Luxury storage organizer for 14"+ kitchen cabinetry systems
- Soft-closing, full-extension, ball-bearing steel slides
- Five heavy-gauge, chrome-plated steel baskets
- Powder-coated steel frame
- Adjustable frame size for different cabinet heights
- Frame mounts to top, bottom and (optional) door face

Customize your pantry storage system today with this Kitchen Essentials to see why Sidelines® is tops in the *Art of Fine Storage™*.
