

FOR IMMEDIATE RELEASE

JULY 8, 2010: Introducing Sidelines' Chef Series Adjustable Pull-Out Cabinet Rack!

Chef Series Adjustable Pull-Out Cabinet Rack (SKU# B01545SC-14) above.

Chef Series Adjustable Pull-Out Cabinet Rack (SKU# B01545SC-14) an alternate view from CLOSETS EXPO tradeshow, February 2010.

Perfect for base cabinet sections or smaller applications of pantry storage, our new Chef Series Adjustable Pull-Out Cabinet Rack is but a smaller version of its tall cousin, the **Professional Series Pull-Out Pantry Rack**. Find everything you need at the back of the cabinet without rearranging everything stowed on the shelf.

Fitting standard 14-inch deep pantry sections, our shorter adjustable height rack glides in and out of 18-inch wide cabinetry on full-extension, soft-closing, ball-bearing steel slides. Two heavy-gauge, chrome-plated steel baskets fit on the powder-coated steel frame. Easy installation allows the option to mount the cabinet door face to the frame or leave it open to view.

- Fits 14" + deep pantry sections
- Min. 18" wide section
- Full-extension, soft-closing, ball-bearing steel slides
- 2-Heavy gauge, chrome-plated steel baskets
- Powder-coated steel frame
