Sidelines®, Inc., is pleased to announce that its popular rattan baskets are now available for 30" section widths in all three standard heights (6", 11" and 17"), in both standard depths (14" and 16"), in both natural and cherry brown finishes. These textured finishes provide a rich warmth to standard laminate and fine furniture grade veneer closet systems.

Constructed from the finest raw rattan materials, our rattan finish is woven over Sidelines' steel basket frames for added strength and durability. Coupled with our full extension, ball bearing slides in white, chrome or brass, our baskets glide in and out of view smoothly. And as an added benefit, all our rattan baskets include our translucent polypropylene liner tray as a standard feature.
